

CO-CURRICULAR ACTIVITIES

While scholarship is and must always be the primary aim of a college preparatory education, such quality as loyalty, dependability, initiative, leadership and cooperation are integral attributes of a truly educated man.

Moreover, special abilities and talents, if developed, are important and useful assets to the student and the common good. Students organizations offer a wide range of activities for such development.

Over 70% of students are involved in a co-curricular activity

Our teams are winners of numerous league, district and state athletic championships

Nationally-recognized Engineering and Robotics Teams

Our Drama Department is renowned for premier productions
